

**Amendments to the Specification**

Please amend the specification at paragraph [0175] as follows (additions are underlined; deletions are in ~~strike through~~):

"[0175] In general, the compound of the present invention includes resolved enantiomers, ~~diastereomers~~ diastereomers, solvates and pharmaceutical acceptable salts thereof, and may be illustrated as follows:"

Please amend the specification at paragraph [0178] as follows (additions are underlined; deletions are in ~~strike through~~):

"[0178] The compound of the present invention may also be illustrated as:  
formula:

where D forms a heterocyclic ring having 3 to 5 atoms. For example, the heterocyclic ring may be a 3-membered ring and one of the atoms in the ring is

oxygen. The heterocyclic ring may also be a 5-membered ring and two of the atoms in the ring are oxygen, and the ring may also be substituted with an oxygen atom and another atom in the 5-membered ring may be a sulfur or phosphorus atom. In another example, the 5-membered ring may also be substituted with 1 or 2 oxygen atoms bonded to the sulfur atom."
